

Promoting Community Support for Children, Teachers, and Families

Inclusion means that everyone belongs, is accepted, and supported. With inclusion, children are able to be part of their communities, develop a sense of belonging, and become better prepared for life. Inclusion also allows for better learning opportunities for all children.

Do you need strategies for dealing with challenging behavior?

The S.O.S Program is made available to provide on-site technical assistance to **providers and teachers**. This service is available to equip teachers with strategies for dealing with challenging behaviors in the classroom. You can find the packet for requesting the service on our website under the provider + early intervention tab.

How the SOS work?

After you have submitted the completed SOS packet (by mail or via fax) and it is received by the Coalition you will be contacted by the Inclusion Specialist within 24 to 48 hours to discuss follow up.

Works!

Do you need consultation about including children with disabilities?

You can call the Inclusion Warm Line. The Inclusion warmline is where you can receive immediate feedback, assistance, and consultation about including children with disabilities and special health needs. The Warm Line service is available to all child care providers and offers information on topics including:

- Positive behavioral support
- Strategies
- Child Health
- Laws and regulations (e.g., *The Americans with Disabilities Act*)
- Curriculum
- Child Development
- Environmental adaptations
